ILLINOIS DOD P2 PARTNERSHIP
ANNUAL REPORT CARD
INPUT/SCOTT AFB

Facility Name: Scott Air Force Base, Illinois
Contact Person: Mary Ann McCloskey
Mailing Address: 375 CES/CEV (Civil Engineering/Environmental Management)
701 Hangar Road (Building 530)
Scott AFB, IL 62225-5035
Phone: 618-256-2092
Fax: 618-256-5934
Email: maryann.mccloskey@scott.af.mil

1. Description of type and size of military installation:

The 375th Airlift Wing at Scott AFB provides “HELP FROM ABOVE” through the aeromedical airlift and transportation of government officials and cargo. Scott AFB is host to five headquarters; United States Transportation Command, Air Mobility Command, Air Force Communications Agency, Defense Information Technology Contracting Office, and the Air Force Office of Special Investigations 3rd Field Investigations Region. The base community exceeds 30,000 military and civilian personnel and their families living on and off base. There are approximately 8,100 military and 2,800 civilian employees. Scott also serves nearly 14,000 military retirees and their families.

Scott AFB is located about 25 miles east of St. Louis, MO. Scott encompasses 3,000 acres, with bordering communities of O’Fallon, Fairview Heights, Lebanon, Shiloh, Belleville and Mascoutah in St Clair County. Located in a tributary of the Kaskaskia River, Scott’s topography is generally flat with some gently rolling hills. The Scott community enjoys four definite seasons with an average temperature range of low teens to low 90s. The average yearly rainfall is 38 inches.

2. Environmental goals for installation:

Reducing Hazardous Waste Disposal: Initial goal to reach a cumulative reduction form a 1992 baseline of 50% achieved. New goal criterion after 1999 is based on a 50% calendar year goal.
**Reducing Municipal Solid Waste Disposal:** The goal is to reach a non-hazardous municipal solid waste (MSW) diversion rate of 40% by the end of calendar year (CY) 2005. This goal does not include construction and demolition debris.

Diversion rate = (recycled MSW + composted MSW)/total MSW

Calculation: The diversion rate goal for each calendar year is below:

<table>
<thead>
<tr>
<th>CALENDAR YEAR</th>
<th>DIVERSION RATE</th>
</tr>
</thead>
<tbody>
<tr>
<td>1999</td>
<td>28%</td>
</tr>
<tr>
<td>2000</td>
<td>30%</td>
</tr>
<tr>
<td>2001</td>
<td>32%</td>
</tr>
<tr>
<td>2002</td>
<td>34%</td>
</tr>
<tr>
<td>2003</td>
<td>36%</td>
</tr>
<tr>
<td>2004</td>
<td>38%</td>
</tr>
<tr>
<td>2005</td>
<td>40%</td>
</tr>
</tbody>
</table>

**Reducing Pesticide Use:** The goal is to reach a cumulative reduction from an fiscal year 1993 baseline of 43% in fiscal year 1999 and 50% in fiscal year 2000.

3. Pollution prevention projects implemented in previous year.
   - Purchase of digital cameras
     Environmental savings: reduction in chemical usage
   - Mail in ink jet recycling program
     Environmental savings: reduction in municipal solid waste

4. Members local community:
   - Active member in the St. Clair County Pollution Prevention Committee
   - Hosting Tire Recycling Day on March 24 and 25, 2000 in conjunction with IEPA

5. Foster exchange of P2 information:
   - Host boy scout and girl scout tours and educational briefings at recycling center
   - Sponsor an Earth Day/Tree Planting/Recycling Education Ceremony annually
